

Website Update Service

Plenty of businesses are operated by non-technical people, who have better things to do than understand how to change copy on their website, or upload news stories to keep their website fresh for their audience and the search engine robots...

Wearing The Hat can help.

We can wear your webmasters hat for you, interfacing with the content management system of your website so you don't have to. We have particular experience working with Joomla CMS, and the Zencart and Magento ecommerce solutions.

Please send us your enquiry for more details and a no obligation discussion of your needs.
